**Oil Free Compressors**

# OIL FREE LINE

## When health is concerned, reliability is fundamental.

Developed especially for the medical and odontological applications. The Schulz line of Oil Free compressors promotes a better quality and safety in all clinic procedures.

- Vertical receiver dimensioned for use with cabinet

- The product offers internal and external anticorrosive painting.

- Our oil less compressors also have an internal antibacterial painting.

**MSV 6/08 - Bestseller**

### Those compressors have what you need

Low noise level	=	Strong and durable
Oiless pump	=	Resistant materials
Easy care	=	Anti bacterial control painting
Powder coated internal and external painting	=	Safety and electrical protection
Versatility in models	=	Direct air options or belt driven
Tanks with international safety rules	=	Practical and light

## ACOUSTIC CABINET

- Cabinet with a modern and exclusive design which accompanies the decor in your office.
- Internally coated with noise absorbent padding for low noise level.
- Features an exhaust to remove heat generated by compressor as well as light indicator to show when equipment is on.

# SCHULZ COMPRESSORS

## Company History

With more than 50 years in the market, Schulz is constantly improving. Using state of the art technology to achieve the competitiveness requested by the market. In the beginning, Schulz concentrated its activities on the foundry segment, and in 1972, Schulz began manufacturing air compressors.

What began as a line of only two air compressor models would soon turn into the largest and most complete line produced in Brazil. In 1984, Schulz products were made available through all of Latin America, Central America, and the USA.

Following this strategic development, in 1989 Schulz began the production of rotary screw compressors, competing in this segment with the biggest worldwide companies. In 1999, Schulz of America, Inc. was founded in Atlanta, Georgia with a warehouse, sales, and technical personnel who were trained at the head office in Joinville, Brazil. By doing this, Schulz definitively conquered it's share in the North American Market.

Currently, the company possesses modern industrial facilities with more than 667,000 ft2 of built up area where it develops diaphragm, reciprocating, and rotary screw compressors. Schulz continuously improves, perfecting production and testing processes and investing in staff development. Approved by the most demanding and rigorous international quality certification authorities, it is conquering important markets.

Today, Schulz is present in more than 60 countries, which reaffirms the excellence and the high technological standards of the product lines.
