5 hp Two-Stage Air Compressor Direct Drive Coupling

NEW PRODUCT

The AUDAZ MCSV-20 AP air compressor was developed for professionals seeking productivity, reliability, and consistent performance. Essential in various construction processes, it stands out especially in polyurethane (PU) foam application, ensuring uniform spraying, complete panel filling, and maximum performance in thermal insulation and sealing. With stable pressure, maximum power, and compatibility with major PU foam systems, the AUDAZ MCSV-20 AP delivers fast, safe, and superior-quality applications from start to finish.

Key Applications

- **Polyurethane (PU) foam:** thermal insulation and panel sealing.
- **Painting:** paints and varnishes for structures and finishes.
- **Pneumatic tools:** nail guns, screwdrivers, jackhammers, sanders, etc.
- **SIP panel installation:** precise fastening and finishing.
- **Sealants and low-expansion foams:** sealing and filling spaces.
- **Blasting/cleaning with compressed air:** surface preparation and maintenance.

DUAL PISTON CAST IRON PUMP

Durability and industrial performance (up to 175 psi); ideal for atomization and filling of PU foam.

HIGH CAPACITY COMPRESSOR

Enables fast and continuous applications, efficiently covering large areas.

EXCLUSIVE IC-TECH® TECHNOLOGY

Integrates high-efficiency stages, maximizing performance and extending oil life to 300 hours.

LOWER MAINTENANCE COST

DIRECT DRIVE COUPLING BETWEEN PUMP AND MOTOR

Lower energy consumption, increased safety (no exposed rotating parts), and reduced noise.

20-GALLON HORIZONTAL ASME RECEIVER TANK

Compact, horizontal design for minimal floor space usage.

EQUIPPED WITH A 5 HP THREE-PHASE ELECTRIC MOTOR

Delivers robust performance, even during intensive and prolonged operations.

1-YEAR COMPRESSOR PUMP WARRANTY
